## Asia's most influential oil & gas technology event takes place at Singapore International Energy Week 2019

*The one-stop shop for the refining, petrochemicals & chemicals industry to discuss the latest technologies and innovations*

SINGAPORE – Asian Downstream Summit, Asia's leading conference and exhibition will be held on 30<sup>th</sup> – 31<sup>st</sup> October 2019 in Singapore. Co-located with the much anticipated Refining & Petrochemicals Asia Conference, this is Asia's "must attend" event on the industry calendar.

As the anchor oil and gas event during [Singapore International Energy Week](#), hosted by the **Energy Market Authority**, the event will gather 1,000+ industry professionals, leaders, and influencers under one roof to offer insights on the latest technologies and innovations in the industry.

The 2019 conference programme features an exclusive, "invitation-only", breakfast forum hosted by Baker Hughes, a GE company. This will be followed by a combined conference plenary for both "[Asian Downstream Summit](#)" and co-located "[Refining & Petrochemicals Asia Conference](#)" with the theme "*Remaining Sustainable and competitive in 2019 and beyond*".

The Plenary will also host the Asian Downstream Summit "Awards of Excellence", the most prominent awards ceremony for refining & petrochemicals in the Asia Pacific industry calendar, representing a benchmark of excellence for those working in the oil & gas industry.

"The Asian Downstream Summit Awards program honours and recognizes industry visionaries and companies who have showcased outstanding performance and innovative technologies. These people and their organizations are enabling the market to become ever increasingly efficient through technological development", says Tanushree Mulraj, Director of Conferences at World Refining Association Asia.

2019 Award Categories include:

- Young Engineer Award
- Best Digital Transformation Program
- Innovations in Oil & Gas Digital Technology
- Best Innovation Program in Singapore

We have specially crafted our agenda to incorporate a specific focus on key refining & petrochemical technologies, becoming the main regional event to delve deeply into exploring how these technologies can transform plant operations.

### Conference Themes Include:

Asian Downstream Summit	Refining & Petrochemicals Asia
Automation, IIoT, Software Applications	IMO 2020 and your refinery: challenges and expectations
Maintenance, Asset Integrity & Reliability	Advances in Refining & Petrochemical Technologies
Digital Innovations in Manufacturing	Bottom of Barrel Technologies
HSE & Achieving Operational Excellence	Latest Trends in Fluid Catalytic Cracking Technology
Big Data & Data Analytics	Clean Fuel Technologies & Alternative Fuel Production
Cybersecurity & IT	EPC, Projects & Innovations
Connected Supply Chain	Shutdowns and Turnarounds
Artificial Intelligence, Machine Learning	Crude to Chemicals
Energy Efficiency & Role of Refineries in the Energy Transition	Refinery Configuration and Conversion Technologies
Blockchain	Catalyst Technologies

12th annual

# ASIAN DOWNSTREAM SUMMIT

2019

Co-located with

REFINING &  
PETROCHEMICALS  
ASIA 2019

30 - 31 October 2019 | Sands Expo & Convention Centre, Singapore

Margin improvement through IIoT

Refining-Petchem Integration

**Asian Downstream Summit** will also feature “*invitation only*” workshops, running simultaneously to the conference sessions and an interactive exhibition by leading technology experts. A purpose-built technical theatre on the exhibition floor will provide technology companies with the opportunity to host expert talks showcasing their latest innovations. Conference delegates will have the opportunity to pre set-up meetings using our special networking application and also take part in an interactive Q&A during conference sessions using our multiple response program.

Hosting more than 100+ speakers, 40+ international sponsors and 1,000+ conference delegates including key government & ministerial officials, Asian Downstream Summit and co-located Refining & Petrochemicals Asia Conference will bring together decision makers to address the future of the downstream oil & gas industry.

The event is the ideal platform for networking, seeking partnerships, and showcasing your technologies.
